Student Researcher, BS/MS, Winter/Summer 2026

Google

Waterloo, ON, Canada; +2 more

Intern & Apprentice

Apply

Applications will be reviewed on a rolling basis and it's in the applicant's best interest to apply early. The anticipated application window is open until **July 17, 2026**, but may close earlier if all available projects are full. Applications submitted after the application window or once the role is closed/projects are full will not be considered.

Participation in this program requires that you are located in Canada for the duration of the engagement.

This opportunity is intended for students who are pursuing a Bachelor's or Master's degree program in Computer Science or a related field. Our Student Researcher opportunities are flexible in time commitment, length of opportunity, and onsite/remote nature, depending on the specific project and host needs. Start dates for this role are typically January through July.

This program is best suited for students who will not be seeking full time employment following this role, as this program is non-conversion eligible.

Google is a global company and, in order to facilitate efficient collaboration and communication globally, English proficiency is a requirement for this internship program.

To start the application process, you will need an updated CV or resume and a current unofficial or official transcript in English (PDFs preferred).

Please ensure your anticipated graduation date (in MM/YY) and any proficiency in coding languages are listed on the resume.

location from the following: **Waterloo, ON, Canada; Montreal, QC, Canada; Toronto, ON, Canada.**

Minimum qualifications:

- Currently enrolled in a Bachelor's or Master's degree in Computer Science, Linguistics, Statistics, Biostatistics, Applied Mathematics, Operations Research, Economics, Natural Sciences, or related technical field.
- Experience in one area of computer science (e.g., Natural Language Understanding, Human Computer Interactions, Computer Vision, Machine Learning, Deep Learning, Algorithmic Foundations of Optimization, Quantum Information Science, Data Science, Software Developing, or similar areas).

Preferred qualifications:

- Currently enrolled in a full-time degree program and returning to the program after completion of the internship.
- Currently attending a degree program in Canada.
- Experience as a researcher, including internships, full-time, or at a lab.
- Experience with one or more general purpose programming languages (e.g., Python, Java, JavaScript, C/C++, etc.).
- Experience in contributing research communities or efforts, including publishing papers in major conferences or journals.

About the job

The Student Researcher Program fosters academic collaborations by hiring students onto research projects aligned to company priorities in scientific advancement. The program offers placements on teams across Google for research, developing, and science roles. As a Student Researcher, you will have the opportunity to participate in research projects focused on developing solutions for real-world, large-scale problems.

Student Researcher projects are exploratory and experiences that drive scientific advancement across a multitude of research areas. Students will work collaboratively on projects that explore innovative research challenges and support the creation of breakthrough technologies.
