Software Engineer, Device Based Experiences, Google Wallet

Google

Singapore

Early

Apply

Google will be prioritizing applicants who have a current right to work in Singapore, and do not require Google's sponsorship of a visa.

Minimum qualifications:

- Bachelor's degree or equivalent practical experience.
- 1 year of experience with software development in one or more programming languages (e.g., Java, Kotlin).
- 1 year of experience with data structures or algorithms.
- 1 year of experience with full stack development, across back-end such as Java/Kotlin, Go, or C++ codebases, and front-end experience such as Kotlin, Java, or Swift.

Preferred qualifications:

- Experience with full-stack, including designing and integrating with server-side APIs to support client features.
- Experience in Android development.
- Experience in Kotlin and Java.
- Understanding of Android internals.
- Ability to work effectively in a collaborative, cross-functional environment.
