Software Engineer, Wallet

Google

Singapore

Early

Apply

Google will be prioritizing applicants who have a current right to work in Singapore, and do not require Google's sponsorship of a visa.

Minimum qualifications:

- Bachelor's degree or equivalent practical experience.
- 1 year of experience with software programming in languages such as Java, Kotlin, C++, Python or Go.
- 1 year of experience with data structures and algorithms.

Preferred qualifications:

- Experience with the full software development lifecycle.
- Experience with full-stack (client, server and database) development.
- Experience with Android application development.
- Knowledge of the payments or digital credentials landscape.
- Knowledge of NFC contactless payments.
- Passion for user-facing features and a strong sense of product excellence.

About the job

[Skip navigation links](#)

Google's software engineers develop the next-generation technologies that change how billions of users connect, explore, and interact with information and one another. Our products need to
